The Jointer can be shifted as as to take more or less land, and it can always be kept on a line with the Plow.

The wheel will run under the beam or one side of it as desired, and always kept on a line with the Plow.

The beam is adjustable for Spring or Fall Proving, and also for two or three horses.

The handles can be adjusted to accommodate a man or boy on this same Plow.

Wooden beams are going out of use because they shrink, swell, and warp, and never run two seasons alike. Iron beams are too beavs.

A Steel beam is the necessity of the day. It is three times as strong, and very much lighter than any other style.

When see say a Mold Board is chilled, the Farmers know it is so.

We do not palm off on them a composition of various metals and call it chilled metal.

We want agents for this new Flow in every town in this state.

WE PROPOSE TO FLAGE THIS FLOW IN THE HANDS OF THE FARMERS AS MEAR THE COST OF

MANUFACTURE AS POSSIBLE.

It is the best Agricultural Implement ever sold. It is the chespest.

We make Right and Left Hand Plows of all sizes. Also Side Hill Plows.

37 This is the only Steel Chilled Plow in the World.

Steel costs several times more than Iron. But this Plow, full rigged, by giving small discounts, can be sold for Seventeen Dollars.

mpare this price with that of any Iron Plow ever made.
